The principal and interest of such bonds shall be payable solely from the special fund or funds herein authorized to be provided for such payment. The bonds of each issue shall bear such date or dates and interest at such a rate or rates, not exceeding [six percent per annum] *the maximum allowable by law* payable as provided by contract, and shall mature at such time or times not exceeding forty years from the date or dates thereof, and be payable in such medium or media of payment as to both

principal and interest as may be determined by the authority, and may be made redeemable before maturity at the option of the authority at such price or prices and under such terms and conditions as may be fixed by the authority in the resolution providing for the issuance of the bonds. The authority shall determine the forms and denominations of the bonds, including any interest coupons attached thereto, their manner of execution, and the place or places of payment of principal and interest thereof, which may be at any bank or trust company within or without the state. The authority [shall offer such bonds for public sale, and in the event no acceptable bids are received at such public sale, then the authority may sell such bonds in such manner] *may sell such bonds in such manner, either at public or private sale*, and for such price as it may determine to be in the best interest of the authority, but no such sale shall be made at a price so low as to result in the payment of interest on the money received therefor at more than [six percent per annum] *the maximum allowable by law* computed with relation to the absolute maturity of the bonds in accordance with standard tables of bond values, excluding, however, from such computation the amount of any premium to be paid on redemption of any bonds prior to maturity. Prior to the preparation of definitive bonds, the authority may, under like restrictions, issue interim receipts, interim certificates, or temporary bonds, with or without coupons, exchangeable for definitive bonds upon the issuance of the latter. The authority may also provide for the replacement of any bond which shall become mutilated or be destroyed or lost.

(4) *The authority may issue revenue bonds only in conjunction with specific projects, the revenue or income of which insures the retirement of the revenue bonds, and there shall be no general revenue bond issue secured by revenues of the entire site. Section 7. The state board shall adopt regulations to insure the teaching of drug abuse education to all pupils, including elementary, and shall require courses of at least one semester duration be offered in all junior and senior high schools. EXPLANATION OF VOTE

I support all of the provisions of this bill except the increase in licenses. In the absence of some evidence justifying the increase of the shop owner's renewal license from \$2.00 to \$10.00 and some indication of how the additional funds are to be used I cannot vote for the increase. I may well have voted for the bill with an increase if the need for such increase had been shown but there was absolutely no explanation presented to the Senate to support this increase.

323.14 Detour authority; charter carriage

(1) Any motor common carrier holding a certificate may depart from the route described in such certificate if compelled to detour on account of the closing of roads or bridges pursuant to rules and regulations adopted by the Commission.

(2) Authority to engage in charter operation shall not be granted as a matter of right in any certificates issued subsequent to October 1, 1970, except in certificates issued pursuant to application filed prior to said date, unless the applicant has proved in an appropriate proceeding that public convenience and necessity requires such operation, provided that in no event may the Commission grant charter rights except in conjunction with the grant of regular route certificates to motor common carriers of passengers. Any such certificates issued authorizing the transportation of passengers in charter carriage will include the authority to depart from its authorized routes of carriage to transport a party of passengers to any point or place in the State of Florida, provided such charter party originates at a point authorized to be served on the regular route of such carrier. Such carrier may originate charter parties from points it is not authorized to serve on or off its regular routes provided that such points are not served by another regular route motor common carrier authorized to perform charter carriage.

(3) Charter rights are not severable by sale, transfer, assignment or any other means whatsoever, from the certificate of which the charter rights are a part; provided, however, that any charter rights granted after October 1, 1970, which duplicate the rights of any existing motor common carrier of passengers, may be sold, transferred, or assigned only to an existing certificated motor common carrier of passengers whose rights are duplicated by such charter rights.

(4) Any regular route motor common carrier of passengers holding a certificate prior to October 1, 1970, authorizing the transportation of passengers, baggage, mail and light express and any such carrier receiving any certificate issued pursuant to application for same pending prior to said date shall have as a matter of right (unless restricted by its certificate from engaging in charter carriage) the authority to depart from its authorized routes of carriage to transport in charter carriage a party of passengers to any point or place in the State of Florida, provided such charter party originates at a point authorized to be served on the regular route of such carrier. Such carrier may originate charter parties from points it is not authorized to serve on or off its regular routes provided that

such point is not served by another regular route motor common carrier authorized to perform charter carriage.

(5) The provisions of subsections (2) and (4) shall not be construed to affect in any way the charter rights held by motor common carriers in this state prior to October 1, 1970, and such motor common carriers of passengers holding a certificate on such date may depart from its authorized routes of carriage for the purpose of transporting in charter carriage a party of passengers to a point or points not on such route, providing such charter party originated on the route of or at points served by such carrier.

(6) Carriers either holding or granted charter rights pursuant to sections 2, 4 and 5 of this Statute are entitled to the protection afforded by this Chapter 323 when an applicant seeks duplicate charter rights.

(7) Common carriers of passengers, under reasonable rules and regulations of the Commission, may arrange for and receive for charter services such compensation as may be agreed upon between the carrier and the party or parties to be served, and such compensation may include services and expenses in addition to transportation charges.

(8) In the event an authorized carrier or carriers cannot perform a charter trip, the Commission shall have the authority, pursuant to rules and regulations of the Commission, to order any certificated motor common carrier of passengers to perform such charter trip.

(9) This act shall take effect upon October 1, 1970.
